About

Currently, applying innovative problem-solving skills to build L&D solutions that meet real-world business needs. I'm passionate about using the most up to date eLearning tools, ID methodologies, and xAPI recording methods to continually improve learning outcomes. Previously, I have experience with web development, project management, LMS implementations, sales, and higher-ed.

Experience

INSTRUCTIONAL DESIGNER / FRONT END DEVELOPER

Henderson Design & Consulting | October 2020 - Present

- eLearning development in Articulate Storyline & Rise
- Build custom content using HTML, CSS, JavaScript, React
- Design websites using up to date UI / UX design principals
- LMS implementation & management

Instructional Designer

Trainicity | March 2021 - Present

- Develop eLearning courses, instructional videos, job aids, corporate documents, PPTs, and content for social media marketing
- Own content development from conception to delivery
- Meet with SME's to define projects and then use ADDIE to manage projects from start to finish
- Conceptualize the content in a design document & outline a learner-centered solution that achieves the business goal
- Use project management skills and software to manage 3-5 overlapping projects
- Use HTML, CSS, and Javascript to develop custom solutions
- Support Trainicity's web development, blog, and social media marketing efforts
- Support LMS (Docebo) Implementations
